

# Get COMPLETE *senior health at home*

**Expert In-Home  
Primary Care**

**Advocacy and  
Guidance**

**Urgent Response  
Services**

**With Lifespark COMPLETE™, health care revolves  
around you at home for flexibility and convenience**

In-home collaborative team approach where senior-savvy Advanced Practice Providers (APPs) serve as your primary care and work in collaboration with physicians who regularly see you.

In-home urgent care services to avoid long waits in the Emergency Room (ER).

Transitions guidance for ER visits to communicate your preferences and coordinate services based on your goals.

Added support and coordination integrated with your campus team to identify your life and health goals to streamline services and reduce family stress.

At Lifespark, we're passionate about helping you stay you. About empowering you to do what brings you joy, be with the people you cherish, and live life on your terms.

**Lifespark COMPLETE in Senior Living** is ready to give you more from your Medicare plan – at no additional cost to you. More guidance, more support, more cost-saving options, and more control over your life ... with exceptional outcomes.

It all starts with our complete senior health model that helps you stay healthy at home, navigate health options with confidence, and ultimately live a fuller, more independent life.

You get on-site experts with deep understanding of the changes people face as they grow older.

Together with your campus team, Lifespark COMPLETE gives you an integrated team focused on all aspects of your well-being, filling gaps and providing added attention.

*Age Magnificently*

# A COMPLETE *picture of you*

Your COMPLETE Team gets added power from our whole-person approach.

We use the 7 Elements of Well-Being with you to build a more complete picture of you as a person with key information that matters to you but often gets left out of other health records – like your preferences, life goals, even your hobbies – so we know you in those moments that matter.

**Lifespark Health:** For people with health plans that do not participate in Lifespark COMPLETE or who choose not to change plans, Lifespark offers an in-home primary care service led by an Advanced Practice Provider (APP) who provides support at home similar to a traditional clinic visit.
